

## ABOUT US

---

### WHO WE ARE

---

We are a team of **experienced** Professionals, trainers and facilitators, who have garnered much experience working as engineering consultants and technical services provider to top firms in the industry.

Together, we boast of a cumulative experience of over **50 years**, and we believe these experiences can be bequeathed.

“

*We are passionate about learning and we continually seek better ways to meet the demands of our ever growing community of experienced professionals and active learners.*

”

### VISION

---

To be the best one-stop-shop for affordable, top-notch, online skilled based, professional development courses.

### MISION

---

To create, develop, and deliver industry focused, skill-based professional development curricula courses for everyone willing to enhance their professional skills and career prospects through the easiest-to-use online learning platform.

## Why Choose Us?

---

At the top of our unique position is our ability to integrate the industrial working culture into our curriculum.

Our students enjoy the benefit of partaking in real-life industrial projects as part of their classroom experience.

We are able to achieve this because, unlike most training academies, we are first an Engineering Company before a training Academy.

## BESPOKE TRAINING

Our programs are specially tailored to meet the demands of our ever-growing clients ranging from young graduate engineers so passionate about their career growth in the oil and gas industry and the much-experienced industry professional who feels the need to contribute to his wealth of experience for personal growth and advancement.

## WE DELIVER ON OUR PROMISE

Our mode of training has been proven over the years to be the very best not only because of our skilled tutors who have through the years garnered much experience in training industry professionals but also because we deliver on our promise of bequeathing the engineering experience in our clients.

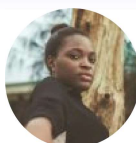

## What our Students have to say

Engineering prowess, pipe analysis and industry based code has been a seeking knowledge after my internship with the oil and gas industry. **Kosae Academy** gave me a platform that is shapening my graduate life.

Jude Oloya

A top-notch training program for young and professional engineers with lots of relevant industry tailored hands-on practice. The facilitators are well vast in these courses having garnered much experience over the years in training industry professionals.

Sakpa Ogaga

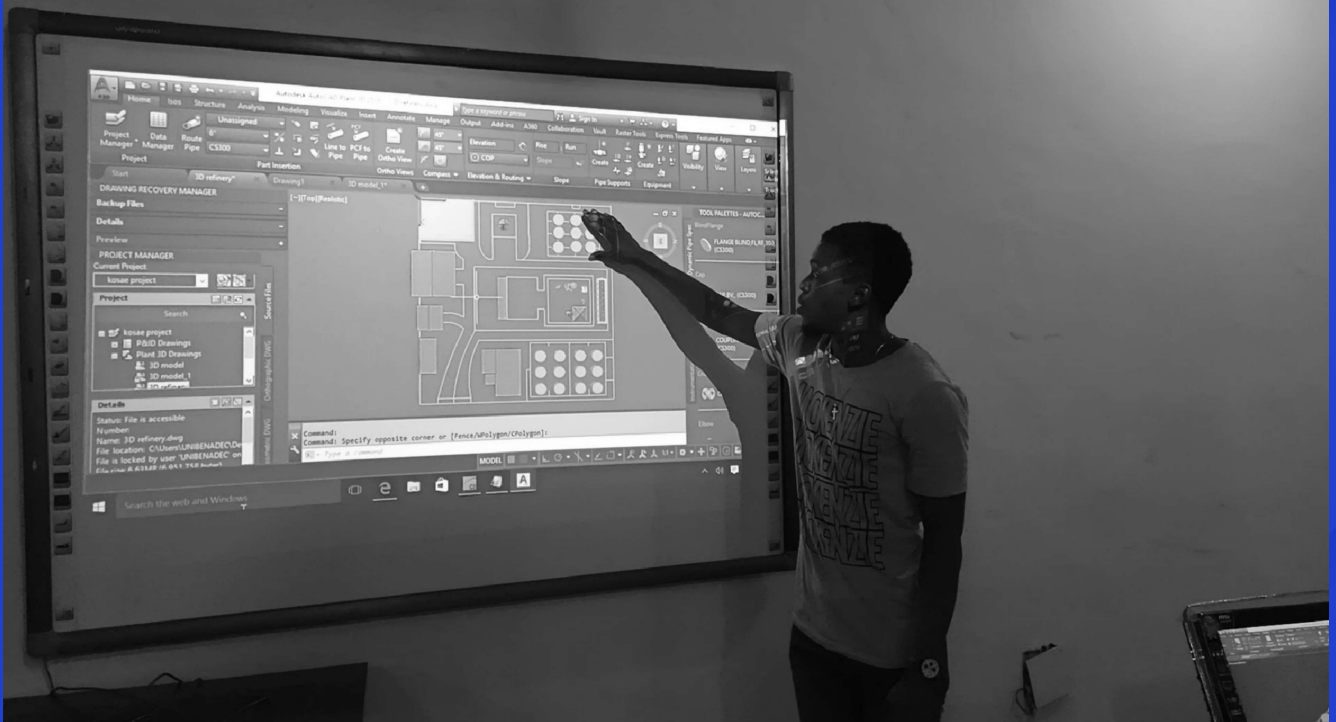

At first, i was unsure of how it was going to be, but, i took a leap of faith and i have not regretted it till date. **Kosae Engineering internships Academy** is your one stop training platform for quality learning
