

We help you BUI

At KOSAE ACADEMY, we believe in a world of endless possibilities where the engineering experience is recreated

SolidWorks & AutoCAD Training

Premium Material

Our materials are second to none.

They are a compilation of years of experience of industry professionals

Interesting Quizzes

Routed within our courses are interesting quizzes that aids the mind better grasp the body of knowledge in our courses

Actionable Training

Our trainings aids capacity development of our students hence providing the medium to learn something new while also developing current industry relevant skills

“

The more you read, the more things you know.
The more you learn, the more places you'll go.

- Dr. Seuss

Frequently Asked Questions

What do I stand to gain as a fresh Engineering Graduate?

You will agree with us that the skill gap between the engineering industry and the academic sector is very wide. Gone are those days where firms recruit fresh graduates with a view of training them to acquire the needed skills such as what we offer. What you stand to gain is knowledge and understanding that can help position you to getting employed in the oil and gas sector as a design engineer and once in, your growth process begins.

What discipline of Engineering can take this course?

The courses are designed for easy learning by anyone from any discipline (not restricted to engineering alone) with interest in the Oil and Gas sector.

Are these courses also offered as on-site trainings?

Very much so. These courses are offered as in-house training in our training facility in Benin, Nigeria. Information concerning the commencement of the training is always made available when we are ready to host this and other training.

We are never alone
